

Warsaw, April 3<sup>th</sup>, 2014

## Wake up with Ecospring - plants for waste at STENA EkoStacja

In the spirit of spring and boosting energy, STENA EkoStacja and IKEA Targówek invite all ecofans on 12th April, between 11 a.m. and 4 p.m. to celebrate Earth Day. Anyone who brings on this day plastic, waste paper, metal, as well as electrowaste, will receive in return seeds and seedlings of plants according to the price list. Moreover, plenty of attractions are scheduled for this day: meetings with experts, coffee corner and activities for children, including games, competition of ecological knowledge and art classes. Town Hall of Ząbki is the partner of the event.

It is the time for ecospring! Instead of disposing of valuable waste in the trash, take it to STENA EkoStacja on Saturday 12th April, between 11 a.m. – 4 p.m. and make a gift to Mother Earth. Plastics, including PET bottles, metal, waste paper and electrowaste are valuable raw materials that can be recycled and reused. In exchange for segregated waste we are giving away seeds and seedlings of spring plants according to the established price list!

### Ex ovo ... ecology also starts from an egg!

Earth Day at STENA EkoStacja is a real celebration of spring with full of attractions. We invite you and your children to participate in games - ecobowling and sorting waste in time, to show off skills at computer game Recycle Drop, present knowledge about ecology and correct segregation at ecoquizes. Each winner will be prized. As a part of the art activities connected to the Easter, we encourage both children and their parents to use an imagination while decorating the large model of Easter egg - using small waste, fabric scraps or traditional inks. Great fun guaranteed!

STENA EkoStacja is an unique place. You find there the Showroom prepared together with IKEA Targówek, which offers you a possibility to watch an educational exhibition and see how to create ecohome to live in harmony with the latest trends and nature. Earth Day is also an excellent opportunity to explore the recycling station with Stena experts and ask them bothering questions about the new statutory regulations, sorting rules or the fascinating possibilities offered by the recycling. Stena Recycling experts

will be available during the event. For increase energy we guarantee visitors Swedish sweet snack. Visit us and have fun!

Your waste are valuable! We collect: PET bottles and aluminium cans; paper and electrowaste. In exchange, we give away seeds and seedlings of plants according to spring price list:

Stena Recycling, which operates within Stena Recycling International, is a part of the Stena Metall Group, a leading company offering total waste management and recycling solutions as well as environmental services. Stena collects and processes all types of waste: paper, plastics, ferrous and non-ferrous scrap and hazardous waste. It is Europe's leading recycler of electronics. Stena Recycling has been operating in Poland since 2001 and now has 23 local offices in the country. Each year it recycles seven hundred thousand pieces of waste generated in business activity and industry. In 2012 Stena Recycling established the first recycling station in Warsaw – STENA EkoStacja.
